The Center for Research Libraries scans to provide digital delivery of its holdings. In some cases problems with the quality of the original document or microfilm reproduction may result in a lower quality scan, but it will be legible. In some cases pages may be damaged or missing. Files include OCR (machine searchable text) when the quality of the scan and the language or format of the text allows.

If preferred, you may request a loan by contacting Center for Research Libraries through your Interlibrary Loan Office.

It is notified for general information that prices of certain petroleum products are to be reduced in certain States of the Federation where they had been increased as a consequence of the effects of the national disturbances on the normal supply pattern to those States.

2. The Commissioner for Mines and Power, in exercise of the powers conferred on him by section 5 (1) of the Petroleum Decree of 1969 has therefore approved new retail prices of petroleum products in some 'reference towns' in the States affected, as listed in the schedule overleaf. Prices in other parts of these States are to be adjusted relative to the prices in the 'reference towns'.

3. The approved prices of specified products applicable in the given 'reference towns' are contained in the schedule overleaf and will become effective from the 1st of January, 1971.

S. I. A. Akenzua,
Permanent Secretary,
Federal Ministry of Mines and Power

28th December, 1970.
The image contains a table from the "OFFICIAL GAZETTE EXTRAORDINARY" of 1956, titled "SCHEDULE". The table is titled "OPEN MARKET PRICES" and lists the prices of various types of oil in different states of Nigeria. The prices are listed in shillings and pence (s d), and the table is divided into five columns: Premium Motor Spirit, Regular Motor Spirit, Kerosene, and Automotive Gas Oil or Diesel Oil. Each column has existing prices and new prices, both in existing and new states.

The states listed are Benue-Plateau, East-Central, Kano, North-Central, North-Eastern, North-Western, Rivers, and South-Eastern. The table also includes the cities within each state where the prices are specified. The prices range from 5 s 7 d to 11 s 11 d.

The table is formatted with columns for each state and rows for each type of oil, with two sets of prices (existing and new) for each. The table provides a detailed view of the variation in oil prices across different states and cities in Nigeria at that time.
